ASLI (Annual Serial Landmark International) Conferences on QoL2018

AicQoL2018PerhentianIsland

6th AMER *International* Conference on Quality of Life

Perhentian Island Resort, Malaysia, 03-04 March 2018

<http://www.amerabra.org>; <https://fspu.uitm.edu.my/cebs>; <http://www.e-iph.co.uk>

“Quality of Life in the Built and Natural Environment 6”

e-IPH
U.K.

Acknowledgement

This 6th AMER International Conference on Quality of Life, AicQoL2018PerhentianIslands, was made possible by many persons.

Many thanks also to the more than 60 International Scientific Committee (ISC) / Editorial Board Members, represented from 17 countries worldwide, for their continuous commitment and dedication for reviewing the conference papers.

Last but not least, our gratitude to the Distinguished Keynote Speakers, Abstract Contributors and Paper Presenters for disseminating their works and findings at this most memorable conference. Their continuous support in participation endorses the relevance and sustenance of more successful forthcoming conferences.

Thank you all !

Organising Committee, AicQoL2018PerhentianIslands

Foreword

The 6th AicQoL2018PerhentianIslands with "*Quality of Life in the Built and Natural Environment 6*" as the main theme managed to attract an overall total of 67 numbers of approved abstracts, from three countries.

Majority of the abstracts (62 numbers or 93%) were contributed by Malaysia. This was followed by Thailand (3), and Taiwan (2). The abstracts approved were simply grouped generally under 16 sub-categories, although quite a number could have been easily placed under more than one category. The top two categories in order of popularity involved the following environments: - Local Heritage Environment and Community Environment / Social Psychology (8 each); and Children/Youth Environment, Health/Healing Environment, and Urban Environment (7 each).

The abstracts were finally transformed into 46 approved full papers. Majority of the full papers (41 numbers, or 89%) were contributed by Malaysia. This was followed by Thailand (3), and Taiwan (2). The full papers approved were simply grouped generally under 14 sub-categories, although again, quite a number could have been easily placed under more than one category. The top three categories in order of popularity involved the following environments:- Community Environment / Social Psychology (8); Local Heritage Environment (6); Children/Youth Environment, Health/Healing Environment, Hospitality/Tourism Environment, Landscaping Environment and Urban Environment (4 each).

The Association of Malaysian Environment-Behaviour Researchers (AMER), the main organiser, together with the co-organisers, ABRA and cE-Bs, FAPS, UiTM congratulate all contributors for making the conference a tremendous success!

Hopefully this conference will inspire and encourage more researchers to participate in our forthcoming serial conferences.

Thanks again for your continuous support as always, and hope for an enlightening conference!

Prof. Dr. Mohamed Yusoff Abbas

Chair, AicQoL2018PerhentianIslands

About the Conference

Background

The AMER (ABRA *malaysia*) support for the AcE-Bs and AicE-Bs conferences, initially organised by the Centre for Environment-Behaviour Studies (cE-Bs), FAPS, UiTM, Malaysia, and co-hosted by international colleagues within the Environment-Behaviour (EB) disciplines, have been held and planned to be away from Malaysia, worldwide.

There is a need for an annual serial internationally very relevant behavioural-themed conference in/nearby Malaysia, not only for the benefit of AMER / ABRA local members who could not participate at the AcE-Bs and AicE-Bs conferences being held worldwide, but also for potential international participants who would like to present their papers in/nearby Malaysia. What behavioural-themed can be most relevant affecting all nations than the QoL (Quality of Life)?

Thus, the timely and relevance of the annual serial back-to-back ASEAN-Turkey ASLI (Annual Serial Landmark International) Conferences on QoL. The **AicQoL**, *AMER International Conference on Quality of Life*. shall be held at the ASEAN venues, while the **AQoL**, *ABRA International Conference on Quality of Life* shall be held in Turkey, or non-ASEAN countries.

AicQoL was also strategized to coincide with AMER's AGMs. The maiden AicQoL2013Langkawi was held on 6-7 April 2013. That was followed by AicQoL2014KotaKinabalu, 04-05 January 2014; AicQoL2015Jakarta, 25-27 April 2015; AicQoL2016Medan, 25-27 February 2016, and AicQoL2017Bangkok, 25-27 February 2017.

The anchor theme of the conference is "*Quality of Life in the Built & Natural Environment*".

6th AicQoL2017PerhentianIslandsTheme: Quality of Life 6

The Quality of Life (QoL) has been a central issue for decades, not only for disciplines involved in the creation of the built environment and the management of the natural environment but more importantly of the impact upon the global communities, due to the growing pressures of development. QoL shall forever not only remain central, as "quality" is subjected to continuous improvement but also subjective because the interpretation differs between communities in the more developed regions as compared to those in developing regions. The QoL concept is also linked to Sustainable Development, such that unless we engage with more sustainable practices, the QoL in both the built and natural environments would soon be deteriorated.

AicQoL2018PerhentianIsland contributes to the debate and solutions on the QoL concept as a key element of responsive environmental design impacting various communities. In particular, which affects the currently 4.3 billion Asian communities worldwide - about 60% of the world population. Special focus shall be upon the wellbeing of those Asian communities, with a high growth rate, living in both the Asian and non-Asian countries., which involves the following environments (though not exhaustive):-

Children's Environment; Commercial/Retail/Services Environment; Communication Environment; Community Environment / Social Psychology; Construction Environment; Disabled / Inclusive Environment; Educational / Learning Environment; Elderly Environment; General Psychology; Healing / Healthcare Environment; Hospitality / Tourism Environment; Landscaping Environment; Legal Matters; Leisure / Recreational / Sports Environment; Local Cultural / Heritage Environment (Food included); Natural Environment; Residential Environment; Rural Environment / Rural Psychology; Technology-related Environment; Transportation / Travelling Environment; Urban Environment / Urban Psychology; Workplace Environment; etc.

International Organisations

ABRA

Association of Behavioural Researchers on Asians (worldwide)

Upon tremendous responses shown by researchers involving behavioural studies on Asians living in both Asian and non-Asian countries presented during the AcE-Bs / AicE-Bs conferences held since 2009, the formation of ABRA, an international organisation was considered necessary and timely.

To propel further internationalisation, the cE-Bs had during AicE-Bs 2010 Kuching, Malaysia, 7-9 December 2010 mooted the idea for the formation of an international organisation, ABRA (Association of Behavioural Researchers on Asians). Following the recent successful registration of AMER, and further interest expressed by representatives from several countries during the recent AcE-Bs 2012 Bangkok, a formal meeting amongst ABRA representatives was held during AicQoL2013Langkawi. ABRA was finally formalised as an international research organisation by the Malaysian Registrar of Societies on 20th October 2014, with AMER as the Permanent Secretariat, headquartered in Shah Alam, Malaysia.

ABRA is now represented in 7 countries worldwide namely, Egypt, India, Indonesia, Iran, Malaysia, Taiwan, and Turkey. One benefit in becoming an ABRA member is the huge discount given to members who attend forthcoming activities to be organized. The discount given to members would more than pay back members' annual fees.

AMER (ABRA*Malaysia*)

Association of Malaysian Environment-Behaviour Researchers

AMER was formally registered in Malaysia on 27th January 2012. The establishment of AMER (ABRA*Malaysia*), the membership of which is also opened to non-Malaysians, was to meet amongst others the following objectives:-

- 1) To represent Malaysia as the nation's official NGO on matters pertaining to the research and consultancy works that involve all Environment-Behaviour studies (EBS).
- 2) To widen networking and co-operation in the field of EBS with institutions, establishments and universities both nationally and internationally.
- 3) To create the nation's database in identifying, registering, administering and coordinating Malaysian researchers involved in the research and consultancy works that involve EBS
- 4) To be the nation's hub and source of reference in all matters pertaining to EBS
- 5) To organize nationally and collaborate internationally, dialogues / seminars / conferences in EBS
- 6) To obtain and distribute research grants to registered members.
- 7) To conduct research and consultancy works that involves all EBS
- 8) To provide expert services in all matters pertaining to EBS
- 9) To highlight local/international events /conferences to registered members for their participation.
- 10) To disseminate research findings and knowledge gathered in the field of EBS in the form of published materials and also electronically.
- 11) To produce future researchers who shall be experts and competent in all matters pertaining to EBS.

More info about AMER and ABRA at: <http://www.amerabra.org>; <http://fspu.uitm.edu.my/cebs/>

International Journals: *E-BPJ*, *AjBeS*, *AjQoL*

Proceedings of previous international conferences organised by the Association of Malaysian Environment-Behaviour Researchers (AMER) since 2010 were published in Elsevier's *Procedia Social and Behavioural Sciences* (ISSN: 1887-0428), www.ScienceDirect.com. Those proceedings have all been indexed in Thomson Reuter's Web of Science (WoS). Commencing 2016, Elsevier ceased future publications of the *Procedia Social and Behavioural Sciences*. Thus, the inevitable but timely birth of the Environment-Behaviour Proceedings Journal (E-BPJ). Mainly, to sustain the publication of the proceedings of forthcoming annual, serial international conferences to be organised by AMER. The maiden issue published in June 2016 comprised of selected full papers presented at AicE-Bs2015Barcelona, Spain, on 30 Aug. - 04 Sep., 2015. The E-BPJ is indexed in the ScienceOPEN since 2017.

Articles published in the Asian Journal of Behavioural Studies, **AjBeS**, are sourced from among the best full papers presented at the AcE-Bs and AicE-Bs. Articles published in the Asian Journal of Quality of Life, **AjQoL**, are sourced from among the best full papers presented at the AQoL and AicQoL. The full papers are internationally double-blind peer reviewed. Those are then condensed and retitled by the authors for publication as articles. The maidens for both journals were published in May/June 2016. Both the journals are indexed in the ScienceOPEN since 2017 and in the DOAJ (Directory of Open Access Journal) since 2018.

More info about the journals at <http://www.e-iph.co.uk>

ajE-Bs, jABs

Both *ajE-Bs* (Asian Journal of Environment-Behaviour Studies) and *jABs* (Journal of ASIAN Behavioural Studies) are international and interdisciplinary journals that publicises research findings pertaining to the interrelationship between human spatial behaviour and the environment (built and natural) and general human behaviour / psychology, respectively, specifically affecting Asian communities living in Asia and non-Asian countries. Related empirical research that involved other communities are also considered for publications.

Articles for publications are sourced from selected double-blind internationally peer-reviewed papers presented at the two serial annual international conferences –the *AcE-Bs* (ASIAN Conference on Environment-Behaviour Studies) held in any Asian countries, and the *AicE-Bs* (Asia / Pacific International Conference on Environment-Behaviour Studies) held in non-Asian countries.

The maidens for *ajE-Bs* and *jABs* were initially published in 2010 and 2011, respectively. Due to a bottle-neck situation, publications were held up after the 2013 editions. In 2016, attempts to revive publishing the backdated issues failed, not only because the initial publisher could not cope but more frustratingly it was discovered that the ISSN issued by the initial publisher since the maidens for both journals were null and void. Subsequently, a new publisher was appointed. Currently attempts are being made to republish all backdated issues to the most current. The maidens were republished in December 2016. It is anticipated that all backdated publications shall be completed in 2018. Both the journals are indexed in the ScienceOPEN since 2017.

More info about the journals at <http://www.e-iph.co.uk>
